

english

I have always felt particularly connected to Moscato, a grape variety I have known since my childhood. Back then, I used to take part in the harvest with my whole family and later, in the evening, accompany my grandfather Armando to deliver the grapes to the local cooperative winery. Today I have decided to vinify it in our estate in this style, using the traditional bottle refermentation method without the addition of sulphites. The result is a dry wine with delicate aromas, gentle effervescence, freshness, excellent drinkability, and a youthful character.

piccollowine.it

Piemonte

denominazione di origine controllata

Moscato Secco

no added
sulphites

APPELLATION Piemonte DOC Moscato secco

GRAPE VARIETY 100% moscato bianco

VINEYARDS AND SOILS Approximately 40-year-old vineyard with western exposure and calcareous-clay soils

TRAINING SYSTEM Vertical shoot positioning, Guyot training

HARVEST Hand-picked

HARVEST PERIOD Late August – early September

VINIFICATION Gentle pressing and alcoholic fermentation of the clarified must at controlled temperature in stainless steel tanks until the desired level of residual sugar is reached; cooling and filtration follow, then yeast addition and bottling.

AGEING Bottle refermentation takes place at a temperature of 10–12 °C; afterwards, the wine rests horizontally in the bottle until spring.

TASTING NOTES Straw yellow colour; the nose immediately reveals acacia blossom aromas followed by rose and citrus notes; freshness and lively effervescence enliven the palate with hints of sage.

SERVING TEMPERATURE 8-10 °C

FOOD PAIRINGS Aperitifs, starters, light pasta dishes, fish mains, vegetables, and cheeses.

AVAILABLE IN 0.75 L BOTTLES

STORAGE AND TRANSPORT CONDITIONS: OUR WINES ARE ARTISANALLY PRODUCED WITH VERY LIMITED USE OF PRESERVATIVES; THEREFORE, THE FOLLOWING STORAGE AND TRANSPORT CONDITIONS MUST BE RESPECTED TO PRESERVE THEIR QUALITY AT ITS BEST, INCLUDING DURING TRANSPORT: TEMPERATURE RANGE BETWEEN +6 AND +18 °C.
